Chennai – 600 002

Lr.No.GS/TNEBES/F1/D.29/ 2026, Dt. 12.05.2026.

Sir,

Respected Sir,

Sub: Ensuring Supply of Oil for the Distribution Transformers – Requested regarding -

Ref: Memo No.: D(D)/CE/MM/SE/MMII/EED/F.Oil/D.3362/24, Dated 13.02.2025

\*\*\*\*\*

Distribution Transformer plays a vital role in the Power Distribution Network to maintain adequate voltage and also to maintain uninterrupted power supply to the consumer.

Various hardships are being faced in the field by the field Engineers. Our Sangam has been continuously representing in this regard and we are thankful to the Administration for taking necessary steps to reduce the hardships.

One among the hardships is shortage of transformer oil for Distribution transformer which leads to failure of Transformer.

Failure of Distribution Transformer amounts to around 5% of failure and it's a worrying fact that 25% is due to shortage of transformer oil. Hence failure of Distribution Transformer due to non availability of transformer oil is a matter of concern and adds to the woes of shortage of Staff and Materials.

Based on our Sangam's representation instructions were issued to the field vide reference cited above on purchase of transformer oil of 100 litres / Section

But the instruction hasn't been followed scrupulously and shortage of transformer oil still exists in most circles.

At this juncture we request the intervention of the respected Director / Distribution to consider this matter of utmost concern and Issue instructions to utilise

## Tamil Nadu Electricity Board Engineers' Sangam

the new transformer oil for the Distribution transformers and to maintain adequate stock to supply minimum 500 litres / Section and to ensure the instructions is followed scrupulously in the field.

Thereby ensuring the reduction in failure of Distribution Transformers and to maintain uninterrupted power supply to the consumers please.

Thanking you, Sir,

Yours Sincerely,

(V.S.SAMPATH KUMAR)

General Secretary.
